Education

Bachelor of Science in Electronics and Communications Engineering (BSECE)

Graduate

Personal Information

- **Date of Birth:** November 30, 1991
- **Languages:** English, Tagalog, Japanese (N4 level)

Professional Summary

Dedicated and highly experienced engineering professional with **11 years of continuous experience** in a manufacturing environment specializing in **wiring harnesses**. Proven international technical expertise with advanced training in both China and Japan. Currently expanding capabilities into modern front-end web development tools to bridge the gap between hardware systems and digital solutions.

Work Experience

Japanese Wiring Harness Manufacturing Corporation

Senior Engineer / Technical Specialist | 2015 – Present

- Over 11 years of hands-on experience in manufacturing engineering, product development, and process optimization for high-quality wiring harness systems.
 - Collaborated closely with cross-functional global teams to ensure adherence to strict quality control and Japanese engineering standards.
 - **International Training & Technical Transfer:**
 - **Japan (2023):** Completed specialized technical and leadership training, focusing on advanced manufacturing methodologies and corporate standards.
 - **China (2018):** Selected for localized technical training in production processes, material management, and efficiency optimization.
-

Technical & Development Skills

Engineering Skills

- Wiring Harness Design & Development
- Process Optimization & Quality Control
- Cross-cultural Collaboration & Technical Documentation

Web Development Tools

- **Languages:** HTML5, CSS3
- **Frameworks/Libraries:** Bootstrap
